

AHCA Partners With National Association for Health Care Assistants (NAHCA) “Caring for Caregivers”

Join the Caring for Caregivers Today!

The Arizona Health Care Association (AHCA) has established a new partnership with the National Association of Health Care Assistants (NAHCA) to create a model especially for AHCA members. No other discounted membership model exists nationally like the one that we are offering to AHCA members for an annual fee of just **\$500** per facility/assisted living center. Once the annual payment is received -- a one time mailing of t-shirts, NAHCA lapel pins, and membership cards will be sent. Each month the facility will receive Lori Porter's PEP Talks to share with the caregivers. Normally the membership fee for NAHCA is \$120/per caregiver per year. ***The only way that this partnership will be successful is if a majority of the AHCA members participate. All you need to do is include the optional NAHCA membership listed on your annual dues invoice in your payment to AHCA. I hope that you will join us in this exciting endeavor.***

Kathleen Collins Pagels
